1863.

THE

TWENTY-FIFTH ANNUAL REPORT

OF THE

Receipts and Expenditures

OF THE

TOWN OF DORCHESTER,

WITH

REPORTS OF THE SELECTMEN, AUDITORS,

AND

Chief Engineer of the Fire Department,

FOR THE

YEAR ENDING JANUARY 31st, 1863.

BOSTON:
JOSEPH G. TORREY, PRINTER, 32 CONGRESS STREET.
1863.

SELECTMEN'S REPORT.

To the Citizens of Dorchester:

Time, with its unerring precision, has reminded us that the financial year of this town, ending January 31st, 1863, has closed.

We, therefore, agreeably to custom, respectfully submit to you the following report with a schedule annexed, which gives in detail the amount of expenditures in each department, and also the financial condition of the town.

SCHOOLS.

The Selectmen, on the 20th day of February, 1852, set off to the town, for the purpose of enlarging the Norfolk School House Lot, a piece of land belonging to the heirs of the late Henry Cox, containing 5,950 feet, and awarded to said heirs $100; but as no one was qualified to give a good title to the land, the money was not paid, except the interest, to which the widow was entitled, as income from the land. We have now obtained a good and valid deed of said land, by paying $122.16.

Adams and Stoughton School Buildings.

At the time our last year's account was made out, there were several bills that had not been presented for payment.

The Building Committee have paid bills for the Adams School House to the amount of $1,024, which, added to $16,080.98, the amount paid last year makes the whole cost of land and building to be $17,104 98.

They have also paid for the building now called the Stoughton School House, $42.75, which, added to $2,853.21, the amount paid last year makes the cost of land, removing and repairing the building, to be $2,895.96.

The whole amount expended for the two buildings and land, is $20,000.94, being 94 cents more than was appropriated for said purpose in 1861.

POOR IN THE ALMSHOUSE.

The Almshouse has continued under the management of the veteran Superintendent, assisted by a Matron. The same good order and general neatness pervades the establishment as heretofore. The inmates seem quite contented and satisfied with their home ; and although many of them are invalids, there has been but very little sickness of so serious a nature as to require the attendance of a physician.

There has been expended on account of the Almshouse and farm, $2,277.58 ; and there has been received from the sale of hay, pears, &c., $628.46, and, if we deduct the amount of labor done on the highways, by men and horses, from the Almshouse, the actual cost of supporting this department has been $1,287.22.

POOR OUT OF THE ALMSHOUSE.

Many families have been furnished with wood, coal and groceries, and in some cases with money, amounting in all to $1,683.95. There has been received from the State and other towns, and from the interest on the Poor Fund, $268.15, leaving the amount of expense to the town to be $1,415.80.

We have endeavored to receive all applicants for aid in a friendly manner, as we are well aware that to apply for public charity by the deserving poor, is not to them, a pleasant task.

There are others who are ever on the watch for an opportunity to present their claims in the most skilful manner, even when their homes are well supplied with provisions, and they have money deposited in a Savings Bank.

It has been our settled policy to provide for all the

poor in this town, who could not provide for themselves, and if there have been cases of suffering from cold and hunger, their circumstances have not been made known to us.

HIGHWAYS.

The appropriation last spring, for the repair of highways was small, considering the number of miles to be repaired. It was therefore necessary to decide, not how much repairs will be beneficial, but how can they be kept in a good condition and not exceed the amount appropriated.

There has been considerable expended in repairing the Dorchester and Neponset Avenues, partly from the highway and partly from the incidental appropriation.

The road from Mill to Commercial Street settled, and the high tides in the spring injured it to some extent, which we have repaired; the expense is included in the amount paid for repair of highways.

The road from Commercial Street to Port Norfolk having also settled, we have had it partly filled up, at an expense of $200. It will need about $850 to complete the filling, and thereby prevent the sea from washing over it.

The Quincy Railroad Company, on the sixth day of April last, accepted the location for their road in Dorchester, from Neponset Bridge over the easterly side of Neponset Avenue and Adams Street to Field's Corner, there connecting with the Dorchester Avenue Railroad.

The travelled part of the Avenue, between the village and bridge, was too narrow, and inconvenient for the public travel in connection with the Horse Railroad. It was therefore decided to widen it to the whole width of the Avenue (64 feet); the abutters have removed back their buildings, the railroad company have filled a part of the road, and the Town the remainder, at a cost of $1,632.41. We have also paid $123.20 for carting gravel from the Town's gravel pit, to raise the hollow north of Neponset village.

Although the owners of the buildings, the railroad company, and the town have been at considerable expense, yet we believe it is a permanent improvement which was much needed, and that it will be a benefit to the abutters, as well as to the travelling public.

LIGHTING STREETS.

The town is now paying for the lighting of 72 lamps; 67 are lighted with gas, at the rate of $20 per year, and five with kerosene, at $16 per year.

This expense is now regarded more favorably than at its introduction into the town, as the safety and convenience of the citizens is thereby promoted.

FIRE DEPARTMENT.

In consequence of the travelled part of the Neponset Avenue having been widened it became necessary to remove the Engine House at Neponset. Some difficulty was found in obtaining a piece of land that would be satisfactory to the different portions of the neighborhood. A lot of land nearly opposite the Washington School House, containing fourteen hundred and seventy-six feet was offered us, for $140 which we purchased, and removed the Engine house upon it.

The Engineers of the Fire Department have since caused an addition to be built to said house.

The whole expense for land, removing, repairing and building the addition was $383.54.

The Engineers have also made an addition to Engine House No. 1, at the Lower Mills, for the accommodation of the Hook and Ladder Company at an expense of $111.51.

We rely on the efficiency of the Fire Department to render us all the assistance in their power in case our buildings should be enveloped in flames, but are happy to state that we have not been obliged to call for their services, but a very few times during the year.

POLICE AND WATCH.

The Town at their April meeting did not make sufficient appropriation to continue the services of the watch. Their pay ceased the tenth of April 1862. It has been found necessary to employ police officers a few times during the year, to prevent disturbance and crime.

PLEURO PNEUMONIA.

A disease among cattle resembling Pleuro Pneumonia made its appearance in this town during the past year. By order of the "Commissioners on contagious diseases" five animals were killed. The State paid four-fifths of the appraised value, and the Town one-fifth, amounting to $29 60.

STATE AID.

Chap. 222, Acts of 1861, authorizes cities and towns, under certain conditions, to aid families of volunteers who were in part or wholly dependent upon the volunteer before his entering the service. This provision has been a source of great comfort to many families.

The whole amount of State aid paid up to December 31st., 1861, was $2,895, of which $2,788.29 was reimbursed by the State. The difference is accounted for from the fact that we paid the families from the time the volunteers were sworn into the service, and the State pay commenced when they were mustered into the regiment.

The amount of our account rendered to the State Auditor for the year ending December 31st 1862, was $14,165.

Most of this sum (if not the whole,) will be reimbursed when the town pays the next State tax.

The whole number of families who have received the aid thus far has been 273. We are now paying them about 2,000 per month.

VOLUNTEERS.

Prior to the first of last December, four hundred and ninety-five men from this town had enlisted in the three years regiments, and one hundred and eighty-three men in the nine months regiments, ten of whom went as part of the quota of other places; and thirty-four men have gone in the Navy.

There has been paid by the town for bounties, extra wages, and incidental expenses attending the recruiting service, $34,311.02 this year, which, added to the sum paid last year, makes $43,704.52.

The Citizens Committee have paid for the same purpose $12,448.82

There has been a great amount of time spent and money contributed by private individuals which we have no means of computing; the ladies have been untiring in their exertions to provide extra clothing, and reading for the soldiers in camp, and many comforts for the relief of the sufferers in the hospitals.

The town at their last April meeting did not make as large an appropriation for the pay of Town Officers as in former years, and as most of the salaries appear the same as last year, some explanation seems to be necessary. The accounts for the financial year embraces all bills paid from February 1st, to February 1st. The Town Officers are chosen in March, and are not paid for the year until the term expires, and the salary for last year's services appears in this year's account.

The Engineers of the Fire Department are chosen from the first of May of each year. Their bill is for the year ending April 30th, 1862.

The School Committee voted some years since that the school year for the teachers salaries should commence the first of September, consequently they were paid for three quarters before the first of September at the former rate, and one quarter since that time at a reduced salary.

EBENEZER EATON,
E. H. R. RUGGLES,
LEWIS F. PIERCE,
Selectmen of Dorchester.

RECEIPTS AND EXPENDITURES.

SCHOOLS.

High School—*Gibson Street.*

Paid Jonathan Kimball, for teaching,	$1,425 00
Mary W. Hall, "	487 50
Caroline E. Raymond, "	487 50
J. Kimball, for books for Library,	1 70
" " " " and stationery for desk,	5 81
" " " " for indigent pupils,	7 79
" " " chemicals,	2 28
" " " Cash paid for cleaning,	2 00
I. Guardenier, books,	7 12

AUDITOR'S REPORT.

The undersigned hereby certify, that we have examined the accounts of Oliver Hall, Treasurer, and find the same correctly cast; and all payments and expenditures charged against the town, are sustained by the necessary vouchers.

We find that there has been received in the Treasury from all sources, within the past financial year, the sum of one hundred sixty-four thousand, five hundred and three dollars, and one cent, which with the balance on hand January 31st, 1862, of five thousand two hundred and ninety-seven dollars, and sixty-three cents, makes a total receipt for the year ending January 31st, 1863, of one hundred sixty-nine thousand, seven hundred and ninety-four dollars, and sixty-four cents; and there has been paid from the Treasury, during the same period, the sum of one hundred sixty-two thousand, four hundred and ten dollars, and seventy-nine cents, leaving in the Treasury, January 31st, 1863, the sum of seven thousand, three hundred and eighty-six dollars, and eighty-five cents, as will appear in the foregoing account.

ELEAZER J. BISPHAM, }
ROBERT VOSE, } Auditors.

Dorchester, February 1, 1863.

TOWN OFFICERS FOR THE YEAR 1862.

Selectmen, Overseers of the Poor and Surveyors of Highways—Ebenezer Eaton, Edward H. R. Ruggles and Lewis F. Pierce.

Assessors—Oliver Hall, William Tolman, Robert Vose, Sylvester H. Hebard and Nathaniel W. Tileston.

Town Clerk—Eben Tolman.

Town Treasurer—Oliver Hall.

Collector—William Tolman.

Representatives—Henry A. Scudder and Robert Johnson.

REPORT OF THE FIRE DEPARTMENT.

To the Selectmen of Dorchester :

Gentlemen :—In accordance with custom, I herewith present the fourteenth report, embracing a list of the Engineers and members of the Fire Department, who have the charge of the buildings, engines, hose carriages, and hook and ladder carriages, belonging to the town, with a list of the fires, losses and insurance; also the amount of expenditures of the Fire Department for the year ending January 31st, 1863.

The Fire Department is organized as follows :—

SYLVESTER H HEBARD, Chief Engineer,

ALFRED CLAPP,
NATHANIEL WITHINGTON,
EDMUND C. FRUEAN,
HENRY FOBES,
GEORGE G. DENNISON,
} Assistant Engineers.

ENGINE, No. 1, Fountain, is in the care of six persons, Charles F. Hall, is Steward.

ENGINE No. 2, Protector, is in the care of six persons, Sargent Fruean, is Steward.

ENGINE, No. 3, Torrent, is in the care of six persons, Michael Merrick, is Steward.

ENGINE No. 4, Alert, is under the care of a volunteer company, (six persons of whom are paid,) Benjamin Bowen, is Steward.

ENGINE No. 5, Independence, is under the care of a volunteer company, (six persons of whom are paid,) Geo. Baird, is Steward.

ENGINE, No. 6, Tiger, is in the care of six persons, Theodore Hersey, is steward.

MATTAPAN, Hook and Ladder Carriage, is in the care of two persons, Samuel Bridget is steward.

I am happy to state that we have not had any great conflagrations the past year. The engines, hook and ladder carriage, and hose carriages are kept in good repair and ready for use.

The number five engine house has been removed on to a piece of land purchased by the town, on Walnut street, nearly opposite the Washington school house. Since its removal, an addition has been built to said house, at a cost of $155.47.

An addition has been built to engine house number one, sufficiently large for the deposit of the hook and ladder carriage, which has been removed to said building. The cost of the addition was $111.51.

There has been seven fires in this town the past year, and the department have been called out several times by false alarms and for fires in other places.

I would suggest that there should be several reservoirs built in different parts of the town where a scarcity of water now exists. There are several localities within the town which are now dependent upon the tide for water to extinguish a fire, and should one occur at an unfavorable time of the tide, those persons having the charge of the engines and apparatus, would be compelled to look on, unable to extinguish it.

The amount expended under the direction of the Board of Engineers for repairs, &c. has been $527.68. Total expenditures on account of the Fire Department the past year, has been $1,705.18.

A table of the fires from February 1st, 1862, to February 1st, 1863, is annexed.

Respectfully submitted,

SYLVESTER H. HEBARD, Chief Engineer.

Dorchester, February 1, 1863.
